Location: Damascus, Syria

SUMMARY

I am a highly motivated and detail-oriented software engineering graduate specializing in frontend and mobile development. I have hands-on experience in building modern, responsive web applications using React.js and mobile apps with Flutter. As part of my graduation project, I developed a comprehensive restaurant management system that included modules for cashier, branch manager, accountant, and warehouse operations, all built with React.js. Additionally, I completed a 3-month Flutter internship, where I gained practical experience with state management (GetX) and RESTful API integration. I possess a strong understanding of software design principles, Git version control, and UI/UX best practices.

EXPERIENCE

DCPC Programming Competition Participant

-  2021
- Achieved 21st place in the DCPC programming competition, demonstrating strong problem-solving and C++ coding skills.
 - Strengthened problem-solving, teamwork, and time management skills under high pressure, competitive conditions.

Flutter Developer Intern

Prokoders

-  08/2024 - 11/2024
- Completed a 3-month internship focused on mobile app development using Flutter.
 - Implemented state management using **GetX** and integrated RESTful APIs.

Graduation Project – Bet-ALMukhtar Restaurant Chain Management System (React.js)

University of Damascus

-  09/2024 - 09/2025
- <https://github.com/NabilaAwad/restaurant-management-system>
- Developed a web-based restaurant management system using React.js.
 - Designed responsive dashboards for multiple roles: restaurant manager, branch manager, warehouse supervisor, and cashier.
 - Worked within a 5-member Scrum team, contributing to front-end architecture and feature implementation.
 - Achieved a grade of 93/100, reflecting exceptional project quality and teamwork.

EDUCATION

Bachelor’s in Information Technology Engineering

University of Damascus

 2019 - 2025

SKILLS

Frontend & Mobile Development: React.js, Flutter, Dart, JavaScript (ES6+), RESTful APIs, GetX
Programming Languages: C++, Java, SQL
Frameworks & Concepts: MVC, Agile, Scrum
Tools & Collaboration: Git, Teamwork, Problem Solving, GitHub, VS Code, Android Studio

STRENGTHS

- Analytical and Problem-Solving Skills:** Applied strong analytical thinking to identify, debug, and enhance application performance.
- Teamwork and Collaboration:** Worked within a 5-member team on the graduation project, coordinating system modules for different user roles.
- Action Oriented:** Proactively implemented new features and resolved issues to ensure timely and high-quality project delivery.

LANGUAGES

- Arabic:** Native
- English:** Intermediate (B1–B2 level)

CERTIFICATIONS

- Flutter Internship Certificate, Prokoders (2024)**
[View Certificate](#)
- DCPC Programming Competition Certificate, DCPC (2021)**
[View Certificate](#)

INTERESTS

- Frontend development.
- Mobile app development.
- Database administration (DBA).
- Learning new technologies.
